

PRISYS NHP DISEASE MODELS of Prisys Biotechnologies Co.,Ltd.

Immunology	Delayed-type Hypersensitivity Rheumatoid Arthritis/CIA Osteoarthritis Multiple Sclerosis/EAE Inflammatory Bowel Disease (UC) Psoriasis Pruritus Atopic Dermatitis T-cell-Dependent Antibody Response Immunosuppression	Hepatology	Liver steatosis Acute Liver Injury Drug-induced Liver Injury Liver Fibrosis Portal hypertension Cholelithiasis Intrahepatic Carcinoma	Ophthalmology	Experimental Autoimmune Uveitis/EAU Glaucoma Retinitis Pigmentosa Retinal Neovascularization
				Gynecology	Post-Partum Hemorrhage Endometriosis
Hematology	Hemophilia A Endotoxemia Arterial Thrombosis Venous Thrombosis Anemia A-V Shunt Bleeding models Acute Blood Loss/Shock Wound healing	Nephrology	Acute Kidney Injury Renal Fibrosis Chronic Kidney Disease FSGS IgA Nephropathy/IgAN Renal Transplantation	Co-develop	Systemic Lupus Erythematosus/SLE Sjögren's Syndrome Autoimmune Myositis Crohn's Disease Myasthenia Gravis Alzheimer's Disease Amyotrophic Lateral Sclerosis Huntington's Disease Diabetic retinopathy Myopia Thrombocytopenic Purpura Acute Respiratory Distress syndrome/ARDS Liver Transplantation Intestinal Cancer Lung Cancer Breast Cancer Brain Glioma Sleep Apnea/hypopnea Endometrial Injury induced Infertility
Cardio-vascular	Acute Myocardial Infarction Heart Failure Pulmonary Artery Hypertension Pulmonary Artery Embolism Cardio-renal syndrome	Metabolism (Complications)	Type I Diabetes Type II Diabetes Insulin Resistance Hyperlipidemia Hypercholesterolemia Acute hypertension Obesity		
Neurology	Intracerebral Hemorrhagic Stroke Brain Ischemic Stroke/MCAO Parkinson's Disease Pain Models Epilepsy Drug induced hallucination	Respiratory	Acute Lung inflammation Asthma COPD Pulmonary Embolisation Pulmonary arterial hypertension Lung Fibrosis Allergic Rhinitis
